github.com/HafsaQamar2

BS Computer Science student at Superior University (CGPA 3.69) who ships full-stack web apps and machine learning tools. Built PayNexus, a live invoice and payroll platform on Next.js, and a customer-churn model deployed on Hugging Face. Founded a self-funded academy and has taught mathematics to 250+ students.

EDUCATION

BS Computer Science 2024 — present
Superior University, Lahore · CGPA 3.69 · Merit scholarship

FSc Pre-Engineering 2022 — 2024
Punjab Group of Colleges, Raiwind

SKILLS

Languages. JavaScript, Python, PHP, C++, SQL, HTML, CSS

Web. React, Next.js, Tailwind CSS, Bootstrap, Prisma

Data. scikit-learn, pandas, NumPy, Matplotlib, Gradio

Tools. MySQL, Git, Vercel, Hugging Face, VS Code, XAMPP

Practice. Agile, Scrum, UML, SRS, system design

EXPERIENCE

Founder and lead educator, self-founded academy 2023 — present

- Designed mathematics curricula for 250+ learners online and in person, with a pass rate above 90%.
- Ran teaching, scheduling, and progress tracking independently, with no external funding.

Mathematics mentor, independent / Zoom 2022 — present

- Handled onboarding, lessons, and assessment for multiple cohorts, with structured feedback.

PROJECTS

PayNexus — github.com/HafsaQamar2/Paynexus — Next.js, React, Tailwind, Prisma, MySQL, JWT
Invoice and payroll app: branded invoices, PDF export, employees, payroll runs, salary slips, and a no-signup demo.
Live at paynexus-topaz.vercel.app

Telco Customer Churn Predictor — github.com/HafsaQamar2/telco-customer-churn-predictor — Python, scikit-learn, Gradio

Scores whether a telecom customer is likely to leave using a saved Random Forest and its label encoders. Cross-validation reached 85%+ accuracy. Live on Hugging Face Spaces.

BookVault — PHP, MySQL, JavaScript, Bootstrap

E-library for Superior University with admin catalogue, student portal, loans, configurable fines, and in-browser PDF reading.

Other builds. Sales analysis dashboard (Python, Hugging Face). AeroTrack, a C++ flight system. StockSense, an inventory tracker using linked lists, stacks, and queues. FrostyBites storefront. An LDR night-light circuit and an ultrasonic obstacle-avoiding robot car.

CERTIFICATIONS

- Meta Front-End Developer — Meta, Coursera
- Machine Learning Specialization — DeepLearning.AI, Coursera
- Python for Everybody — University of Michigan, Coursera
- Google Data Analytics — Google, Coursera
